Storage	Please refer to the information below for details
Shelf Life	24 months from the date of manufacture, 12 months from opening
Directions	Please refer to the information below for details

Skin should be healthy!

Contains 'Monascus Fermented Oil 7' for healthy skin!

The fermentation multiplies the efficacy of the existing ingredients, produces new active ingredients, and maximizes efficacy

'Monascus Fermented Oil 7' : Fermented oil complex solidified and fermented for 240 hours by inoculating monascus with '7 types of natural oils' that are effective on the skin

* 7 types of natural oils :

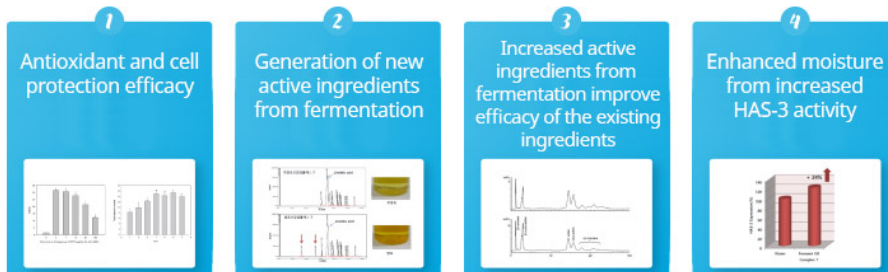

Argan, olive, sunflower, jojoba, green tea, macadamia, camellia

What is monascus?

Medicinal fungus made by cultivating red yeast fungus (a type of monascus) on the surface of non-glutinous rice. A fungus closely related to 'monascus', there are currently 20 types separated and identified into 70 strains. Biological vitality differs depending on the type of fungus

· Efficacy of Monascus Fermented Oil 7

- ① Antioxidants and efficacy on skin protection
- ② Formation of new nutrients from fermentation
- ③ Increased active ingredients from fermentation increase efficacy of the existing ingredients
- ④ Increased moisturizing effect from increased HAS-3 activity

Achieve moist and beautiful skin with natural ingredients!

Applied surfactant derived from 'Solbitol' extracted from corn, potato, and sweet potato

Provides fresh and moisturizing supplements to help protect skin texture and achieve healthy skin

The scent is elegant!

The elegant scent of 'moringa' will make you look forward to cleansing!

A harmony of elegant and charming moringa flower and white flower
A delicately permeating, luxurious and elegant fragrance
Makes you look forward to cleansing daily

It starts with the freshness of lemon and greens and moves on to the elegant floral fragrance of jasmine, moringa, and tuberose, leaving behind the tranquil fragrance of vanilla and musk

Directions

Thorough cleansing with just oil!

No additional cleansing with foam cleanser necessary!

1. Pump oil on dry palm and gently rub on your face in a massaging motion.
2. When rubbing the oil on the face, makeup residue and waste will melt. Do not wipe with tissue but rinse multiple times with warm water.
3. You will achieve moist and fresh skin with just one oil cleansing, but you can also go ahead and do another round of cleansing as per your preference.

Cleansing oil
**Useful
tip!**

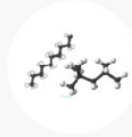

The point of oil cleansing is the emulsification process.

The emulsification process refers to the process of oil turning white when it touches water. Wet the tip of the hand with warm water and rub to emulsify the oil, and rinse with water to effectively remove blackhead and sebum for a deep cleansing effect.

Powerful Cleansing

'Powerful cleansing' that gently removes even heavy makeup

The polar and non-polar oil balance of the 'Polar Balance Melting System' removes all kinds of makeup from waterproof makeup to lip tints through powerful cleansing.

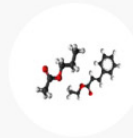

Non-polar oil

Non-polar oil system that quickly melts waterproof and base makeup

Polar Balance Melting System

Polar oil

Polar oil system that efficiently removes tints, eyebrow makeup, and other coloured makeup

The 'Anti-Sebum P' function removes blackheads and excess sebum

The excellent penetration of low-tension oil efficiently removes sebum. The patented 'Anti-Sebum P' shrinks pores and removes sebum

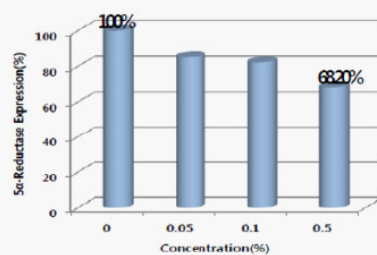

ANTI SEBUM-P

Patented ingredient that shrinks pores and controls sebum production

- Contains evening primrose, pueraria, pine needles, and mixed salicis radices cortex extract
- Fundamental reduction of sebum through sebum adsorption and sebum hormone control help prevent aging and spread of pores by controlling free radicals
- Effectively prevents skin cell deterioration caused by UV rays

5 α -reductase generation rate

Anti Sebum P
Controller of sebum production based on 5 α -reductase inhibition.
